AMBULANCE

Another consignment of ambulances arrived in Ukraine thanks to the efforts of **Tim Cranton** and **Radan Doubrava**. We truly grateful for helping our doctors evacuate heavily injured people and save lives! The cars were sent to Kharkiv and Severodonetsk with all the necessary equipment. With support of **Pro Dobro** and **Bo turbota** three medical institutions in Zhytomyr and Lviv received ambulances. In these institutions doctors rescue the victims of russian aggression.

REPORT FOR **JUNE**

AMBULANCE

We received 10 ambulances from Ireland, donated by **HSE Ireland** and facilitated by **Lifeline Ambulance Services** and **David Hall, Louise Devlin, Sean McGrath** and **Stephen Donnelly**. They arrived filled with 3 patient monitors, 3 ventilators, 1000 burn and wound dressings, 830 bandages, 600 gloves, 200 burn gels, 200 scalpels, 120 sterile drapes, 100 packs of needles, 100 IV lines, 25 sterile towels. These ambulances will be vital for health services.

We are sincerely grateful to all involved **Medical Help Ukraine, MHU, AURI**. Thanks also to **Derek** and his team **CWS BOCO**, ten **Irish police officers** who helped and **all the volunteers**, who worked on this delivery, who picked up the cars from HSE Tullamore. Thanks to **Lucy** and the **Cantor Fitzgerald team** for helping with the cleaning and loading of the cars, as well as **Association of Ukrainians in Republic of Ireland** for the incredible support!

INSPECTION OF HOSPITALS

Together with **Mr Gianluca Colucci FRCS** Consultant General and Colorectal Surgeon Deputy Lead Robotic Assisted Surgery in Worthing Hospital @ U HSussex we conducted an inspection of the hospitals in Dnipro :

1. Hospital 16 where we refurbished operating theatre and provided : Jackson - Rees operating table (donated by our Swedish friends) , C-Arm bought by donors from Ireland and all the equipment needed to operate on the wounded
2. Mechnikov Hospital in Dnipro, where we increased the capacity of ITU by 5 beds and provided diagnostic and anaesthetic equipment
3. Paediatric Hospital in Dnipro, where we provided Defibrillator, USS, incubators

We also identified the need for further Difficult Airway Trolley project and vascular training for the surgeons.

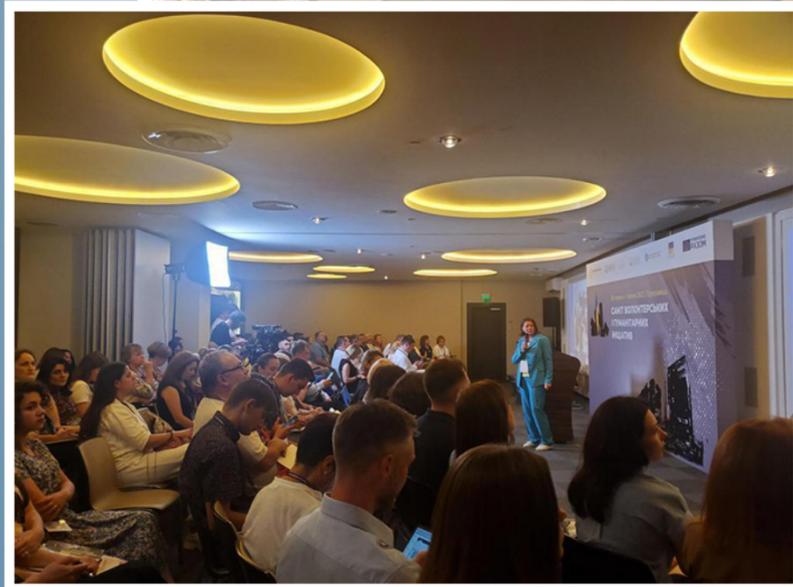

VOLUNTEER SUMMIT 2022

A volunteer summit was held, where nearly 150 representatives engaged in humanitarian aid, representatives of volunteer initiatives and hubs, authorities, donor organizations and international technical assistance projects were present.

The purpose of the summit was to improve coordination between organizations and authorities, as well as to improve the environment for providing humanitarian aid in Ukraine and the volunteer movement. Our CEO was invited to take part in the panel discussion : International discussion - volunteers as the agents of influence!

EVENTS

1

We continue the all-Ukrainian campaign "Let's start a heart together". This time, three defibrillators were installed in Dnipro in collaboration with Razom for Ukraine. 15 specialists of the foundation were trained to provide pre-medical assistance to anyone who wants it - now more than two hundred people can save their lives.

2

We visited the Cambridgeshire County Day in Great Britain. During the celebration of the platinum jubilee of Queen Elizabeth, funds were collected for charitable initiatives, in particular to support the projects of our foundation.

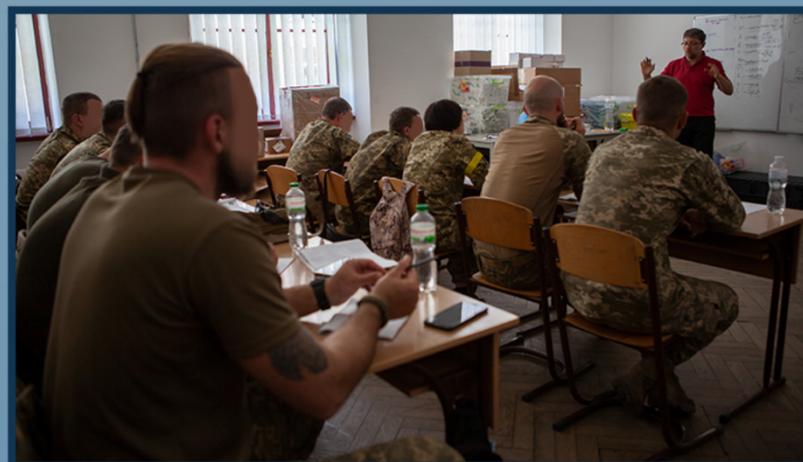

REPORT FOR **JUNE**

COURSE OF TACTICAL MEDICINE

In June, our training took place again. This time the participants were military medics in Dnipro and Lviv. In addition to skills, they received backpacks with the necessary medical equipment as a gift from Razom for Ukraine. Now each of them will be able to use their skills on the front line.

REPORT FOR **JUNE**

BLS EDUCATION

BLS (Basic Life Support) skills are now extremely important for Ukrainians. therefore, we continue to teach them and hold free courses for everyone. This month, it was possible to organize trainings in Ivan Franko Lviv National University and for The Plast National Scout Organization of Ukraine.
